9 July 1953

MEMORANDUM FOR: THE RECORD

25X1A

SUBJECT: [REDACTED]

1. At 4:00 PM, this date, subject appeared at the Reception Room at 2430 F Street and demanded to see the Personnel Director. I checked with the Inspector General, who advised me to give him an audience, but to have a witness to the conversation. [REDACTED] sat in the meeting.

25X1A

25X1A

2. [REDACTED] delivered a diatribe against the Agency and its treatment of him. He repeated prior statements of anti-Semitism, subversiveness and anti-Americanism. He stated he had three Congressional bodies interested in investigating CIA, along with a Veterans Organization. He stated he would interest other Congressional bodies in CIA's activities, in an effort to obtain a full investigation of our practices.

3. He asked me for two items; (a) disclosure to him, and/or his attorney, of his entire personnel file, including medical information, and (b) a letter, signed by someone in authority, advising him that CIA would not employ him under any circumstances. With respect to his first demand, he informed me that he had asked Mr. Pforzheimer of the General Counsel's office for his file, and Mr. Pforzheimer had told him that such was not possible. I stated that if the General Counsel had given him this opinion, I was in no position to go contrary to it. With respect to the second point, subject stated that Dr. Tietjen had told him that, even if he brought in 50 psychiatric evaluations, which were favorable to him, CIA would not hire him again. Subject stated that he felt if Dr. Tietjen would make this statement verbally, he should be man enough to put it in writing. To this I stated that I could not give him such a letter since it was not a matter over which I had personal cognizance.

4. Subject asked whether I had any objection against his seeking an interview with the Inspector General to ask for the two points mentioned, and I replied that I certainly had no objection. He left my office at 4:20 PM.
